

Term 3 Year 5 'I can' Statements

'I can' statements are clear statements which teachers at Campbell Primary have developed for students. Each term we will share the statements which we are intending to cover with our classes so parents have a clear picture of what students are covering in class, and what students should know by the end of their year group. You may see that some statements are revisited throughout the year.

English

Receptive modes (listening, reading and viewing)

- I can explain how text structures assist in the understanding the texts
- I know how language features, images, and vocabulary influence interpretations of characters, settings and events
- I can decode unfamiliar words using phonic, grammatical, semantic and contextual knowledge
- I can analyse and explain literal and implied information from a variety of texts
- I can describe how events, characters and settings are depicted
- I can explain my responses to texts
- I can listen and ask questions to clarify content

Productive modes (speaking, writing and creating)

- I can use language features to show how ideas can be extended
- I can develop and explain a point of view about a text
- I can select information, ideas and images from a range of resources
- I can create informative texts for different purposes and audiences
- I can include multimodal elements for defined purposes in presentations, taking into account other perspectives
- I can demonstrate an understanding of grammar in writing, using a variety of sentence types
- I can select specific vocabulary
- I can use accurate spelling and punctuation
- I can edit my work for cohesive structure and meaning

Mathematics

- I can solve simple problems involving the four operations using a range of strategies
- I can check the reasonableness of answers using estimation and rounding
- I can identify and explain strategies for finding unknown quantities in number sentences involving the four operations
- I can explain plans for simple budgets
- I can connect three-dimensional objects with their two-dimensional representations
- I can describe transformations of two-dimensional shapes
- I can identify the line of rotational symmetry
- I can use the appropriate measurement for capacity and mass
- I can measure and construct different angles
